	perhaps, be made available to one of the told that I would check into the status since I have been	
1	told that I would check into the status since I have been informed that it is not a fully produced system and be in touch with him.	
	informed that it is not a fairy produced by stein and so the section with	
	d. Concerning Kelly Johnson's request to cannibalize some parts	
	from the aircraft 134. stated that he would check with	
	Dr. Flax on this. In the discussion that ensued, felt	
	that if Kelly was granted permission to borrow some of the parts it	
	should be on the basis that they will be returned.	
1	e. stated that if Palmdale was chosen for the	
	storage site for the OXCART aircraft, it would be a good idea to move	
	aircraft No. 134 there. He stated that Palmdale would appear to be a	
	logical choice because of its proximity to the IRAN. He stated that	
	people seemed to vacilate between and Palmdale as the storage	
	site, although Palmdale seemed to be the logical place for it. I stated that we would have no objections if Palmdale were selected inasmuch	
	as it made a lot of sense to collocate it near the IRAN facility to which	
	the SPO has ready access.
